

## COUNTY COUNCIL OF GIRL SCOUTS IS BEING FORMED

Formation of an Adams County Association of Girl Scouts is expected to be completed this evening when representatives of the 21 Girl Scout troops in the county will meet at St. James Lutheran church at 7:45 o'clock.

Final plans for the county-wide organization were formulated Thursday evening at a meeting of the steering committee set up some months ago to complete arrangements for a county organization. Those plans will be placed before the troop representatives for approval.

A constitution and by-laws and a slate of officers for the county wide organization was approved by the steering committee at its Thursday evening session and all that remains before the county organization comes into existence is the approval at the session tonight. Officers of the steering committee made it clear today that additional nominees for the various offices will be sought from the floor of this evening's meeting and that other changes can be made at the joint session of the troops.

### National Leader Here

Miss Loetta A. Caldwell, Washington, D. C., National Girl Scout advisor, attended Thursday evening's meeting and is to be present this evening for the organization. Miss Marian Tupper, former Girl Scout official here and now a full-time Girl Scout executive at Waynesboro, is also scheduled to be present to aid in the formation of the new county-wide organization.

In addition to the officers a number of boards for various activities are to be named tonight. Plans will also be laid for a series of instructional programs taught by Girl Scout executives from national headquarters to be held for the board members. The courses will be conducted two days a week.

### Have 450 Scouts Now

Eventually the formation of the county association will lead to the establishment of a county wide office and the hiring of a full time girl scout executive for the county, members of the steering committee said.

Mrs. J. Walter Coleman is chairman of the steering committee while Mrs. Richard C. Lighter is secretary.

The 21 girl scout troops in the county now have about 450 members. Much of the increase in Girl Scouting has occurred during the last four years; however the first troop in the county was established about 13 years ago.

## 3 ADMIT CAR PARTS THEFTS

A third youth sought for the theft of a set of air horns from a truck which was burned on the Lincoln highway west of Cashtown January 31, was arrested by state police of the Gettysburg sub-station late Thursday, signed a guilty plea before Justice of the Peace Robert P. Snyder, and was held for sentence court Monday in \$300 bail. He is Howard McKenrick, Chambersburg R. 3.

Two others, Richard J. Kane, Orrtanna R. 2, and John B. Kimpfe, Fayetteville R. 1, were arrested Wednesday, and held for court the same night, after signing guilty pleas. They were also released, in \$300 bail.

McKenrick is charged with stealing the air horn, and Kane and Kimpfe with stealing a radio, horns and heater from a truck owned by Miss Rae Shuster, Baltimore, on February 1, after Miss Shuster's brother, Sidney Abraham Shuster, driver of the truck, and his helper, Paul J. O'Kenka, both of Baltimore, had attempted to burn the truck.

Last Saturday they pleaded guilty to charges of attempting to defraud an insurance company by burning the truck and trailer. Shuster and O'Kenka had abandoned the truck after setting it afire. The former was sentenced to from 1½ to 3 years in the Eastern penitentiary and O'Kenka to 6 to 12 months in the county jail.

## Mrs. Longstreet Asks Georgians To Aid Negroes

Atlanta, Feb. 7.—The widow of a famous general of the Confederacy urged the Legislature Thursday to bury Herman Talmadge's bill to bar Negroes from voting "so deep it can never be resurrected."

Tiny, white-haired Mrs. James H. Longstreet, whose husband was one of General Robert E. Lee's chief lieutenants, appeared at the chamber room where the Senate Judiciary Committee was holding public hearings on the "white primary" bill and asked to be heard.

(Editor's Note:—Mrs. Longstreet has visited Gettysburg on several occasions. Her ambition is to raise sufficient funds to erect a memorial to her husband on the local Battlefield. Site for the proposed memorial was dedicated some time ago.)

She then read an impassioned speech, asserting, "a race that can produce a George Washington Carver and a Booker T. Washington already has paid the price in service to their country of the highest privilege of American citizenship—which is the ballot."

### Did War Work

Mrs. Longstreet has been prominent in Southern affairs since her husband's death around the turn of the century. She refuses to tell her age, but she was active enough in the last war to don overalls, live in a trailer and work at the Bell bomber plant in Marietta, Ga., where she now resides.

She stole the show as the four-day hearings closed, with opponents of the measure having their second day before the committee. Mrs. Longstreet brought along a 20-minute speech, but, told her time would be limited to 10 minutes, asked the chairman to notify her a minute before her time was up. He did so, and she delivered her punch line:

"I implore you to turn the scorn of honest men against this infamous bill, repudiate it. Bury it too deep for resurrection."

### Fight For Georgia

"Thus you can announce to all the world and to millions yet unborn that the old Georgia, the great Georgia of Hill and Stephens and Tooms, when Kennesaw Mountain was a peak of fire and Chickamauga a field of blood, still lives to claim an honorable place in the sisterhood of 48, constituting one Nation, one people, America, indivisible and unconquerable, and as enduring as the ideals upon which the Republic was founded."

While leading up to her final plea, Mrs. Longstreet remarked that in the First World War, when she worked in the War Risks Bureau, she found "when Negroes were called to military service they came gladly—they fought as bravely and died as gallantly as white men fought and died."

## URGES YOUTH TO STIR CHURCH TO NEW ACTIVITY

"Be gadflies to goad your church into action. Be one man action committees. And if each one of you here will do that there will be such new life in the churches in Adams county that it will be known from coast to coast," Dr. Edmund H. Kase, Jr., a member of the faculty of Wilson college, told 150 persons gathered Thursday evening for a Youth Rally sponsored by the Adams County Council of Christian Education.

The meeting was held in the Church of the Abiding Presence on the Lutheran Theological seminary campus.

Doctor Kase had as his subject "We Want to do Something About It. Do You Mean It?"

### Urged to Form "Cells"

He urged the formation of "cells, little groups of two or three or a half dozen who are concerned about living a Christian life. Our trouble is that our church services are too large. We miss there the Christian fellowship of knowing our fellow Christians. We have a satisfactory fellowship with God but we do not get to know any of our fellow parishioners.

"In a cell group we can get to know each other. We can help each other to a better life, we share and strengthen each other in a common concern for the good life. 'Wherever two or three are gathered together in My name there am I also.' Any church with even one cell will be a more active church."

"Youth should do youth's work, and youth's work is any job that calls for optimism, drive, initiative and daring. Sometimes it is a liability to be an expert. The experts know the difficulties and so they do not make the effort."

### High School Choir Sings

"It is up to youth to make that effort, to force action. How many times do you hear a sermon that brings everyone to a point where they are ready for action and then everyone leaves the church and the sermon is forgotten. That is a job for youth—to see that the action is carried out."

The rally opened with an organ (Please Turn to Page Two)

ASKS AUDIT OF TEACHERS' FUND

Harrisburg, Feb. 7 (AP) — Rep. H. G. Andrews, House Democratic leader, said today the bookkeeping system of the State Teachers Retirement fund is so antiquated "no one knows how much the commonwealth owes the fund."

Announcing Democratic legislators will sponsor a resolution in the General Assembly calling for an "immediate audit," Andrews asserted in a statement:

"The State Teachers Retirement fund is in such a bookkeeping mess that no one really knows whether the money in the fund is either earning four per cent as required by law or is being subsidized by the commonwealth in amount sufficient to make up the difference between the actual earnings and four per cent."

Andrews stated the fund "has at present securities having a par value of \$248,385,705" and that of this \$146,672,508 was in U.S. Treasury bonds paying 2 1/2 per cent as of October 1, 1946.

"This means that the state must pay the fund 1 1/2 per cent — the difference between four per cent and the actual earnings — on the \$146,672,508," he said.

'Black Dahlia' Clue Fades Before Records

Fort Dix, N. J., Feb. 7 (AP)—Army records show Cpl. Joseph Dumais was right here in Fort Dix at the time Elizabeth (Black Dahlia) Short's nude and mutilated body was found on a vacant lot in Los Angeles.

Post Public Relations Officer Maj. Cornelius T. Morris made that announcement last night, after Dumais had been questioned in connection with the slaying, but the officer declared the army records might be in error.

Morris quoted Dumais as saying he had a date with Miss Short in California on January 9 but that his mind "blanked out" at the time and he remembered nothing until he found himself in New York's Pennsylvania station.

The public relations officer said Fort Dix records showed Dumais arrived here from furlough either the night of January 10 or the morning of January 11 and had not been absent since then. Miss Short's body was found January 15, and police said she seemed to have been dead only a few hours.

Rail Stocks Come To Life On Market

New York, Feb. 7 (AP)—Rail stocks, lately indifferent, came to life today and led the market generally on a recovery push.

The transportation section was a bit better at the opening while profit taking handicapped many leaders elsewhere. Active demand then appeared in the second hour with motors and steels participating. Gains, running to 3 or more points, were widely distributed by midday. Dealings then slowed and top marks were trimmed here and there near the fourth hour.

Bullish contingents again based operations partly on labor optimism, tax hopes and the idea of some observers that any business recession this year would be comparatively mild. Another batch of pleasing earnings and dividends propped sentiment. Thoughts of a technical correction, however, still inspired a certain amount of selling.

Presidential Bill Heads For Senate

Washington, Feb. 7 (AP)—The proposed two-term limit on the presidency headed for the Senate today by virtue of a revived Republican-southern Democrat coalition in the House.

While GOP leaders hailed the House action as a victory in the first test of their 1947 legislative program, one Democratic leader told reporters privately:

"They can't call this a victory for their program. They would have been beaten badly if it hadn't been for the southern Democrats."

The limitation, in the form of a constitutional amendment, went through the House yesterday by a 285 to 121 vote—14 more than the necessary two-thirds majority.

KEYSTONE SPUDS

Washington, Feb. 7 (AP)—Steaming, butter-covered Pennsylvania potatoes were served in the House and Senate restaurants today to remind the nation's lawmakers that the Keystone State is famous for something besides scrapple, Independence Hall and steel mills.

The potatoes were supplied by the Pennsylvania Cooperative Potato Growers association and were served with the compliments of Senator Myers (D-Pa.).

STASSEN SAYS UNION CHIEFS ABUSE POWERS

Washington, Feb. 7 (AP) — Harold E. Stassen, announced candidate for the 1948 Republican Presidential nomination, said today union leaders have "abused" their power but cautioned Congress against "going too far" in restrictive legislation.

The former governor of Minnesota outlined his views of labor legislation to the Senate Labor committee, headed by Senator Taft (R-Ohio), regarded as a Presidential contender.

His plan for "peaceful settlement" of labor disputes called for a compulsory "cooling off" period before strikes and lockouts and creation of an independent office of federal labor conciliation.

Stassen criticized bills by Senator Ball (R-Minn.) — whom he appointed to the Senate in 1940—designed to outlaw industry-wide strikes and forbid maintenance of membership clauses in contracts.

Other Stassen suggestions included: amend Wagner act to permit employer to discuss employment matters with employees, prohibit mass picketing, require unions to file annual financial statements, require election of union officers at least twice every four years by secret ballot and outlaw secondary boycotts.

**Other Suggestions**  
Stassen previously had called for revision of the Wagner Labor Relations act, said emphasis should be on voluntary settlement of labor disputes and denounced what he called "dictatorships" in unions.

The House Labor committee planned to hear views of Rep. Case (R-S.D.), who yesterday filed a statement with the group.

William L. Clayton, undersecretary of state for economic affairs, was called before the House Merchant Marine committee to give information on Russia's attitude on returning 96 American ships turned over to the Soviets during the war.

Chairman W. W. Smith of the Maritime commission told the group yesterday that so far as he knows Russia has "refused" to discuss the matter.

General Election Ordered For Japan

Tokyo, Feb. 7 (AP)—General MacArthur took indirect note today of the increasingly insistent widespread opposition to the Conservative government of Premier Shigeru Yoshida and ordered another general election for Japan.

The supreme commander's edict was delivered to Yoshida in a polite letter couched expressing the belief that "the time has come for another election" to "once more advance the process of democracy which now governs the state."

Yoshida has been the target of heavy criticism from all factions except the ultra-Conservatives.

Shortage Of Freight Cars Hits Western Pa.

Pittsburgh, Feb. 7 (AP)—Already plagued by cold weather shortage of natural gas, western Pennsylvania's industrial plants today were suffering further from lack of freight cars.

Charles Donley, transportation chairman of the Pennsylvania Chamber of Commerce, said the shortage had forced many manufacturers in Pennsylvania, Ohio, West Virginia and New York state to suspend or curtail operations.

Raw materials and finished products are being stored in rapidly diminishing warehouse space for lack of shipping facilities. As a result, Donley added, unemployment figures are mounting since there aren't sufficient incoming materials to keep all employees busy.

An estimated 35,000 workers in western Pennsylvania have been idled by the shutting off of natural gas supplies to more than 400 industrial customers of three large gas companies.

Perry County Girl Held For Murder

Harrisburg, Feb. 7 (AP)—Justice of the Peace Frank M. Milligan reported today Emma Turnbaugh, 18, of nearby Mannsville, is being held for action by the Perry county grand jury on a charge of murder in connection with the death of her infant son.

Milligan said the charge was brought by Perry County Sheriff Maynard W. Carmichael at a hearing yesterday.

The girl had previously been committed to the Perry county jail, Milligan stated, after she pleaded guilty to a charge of concealing the death of an illegitimate child.

Byrd Expedition May Fly Over Pole

Aboard the Mt. Olympus, Feb. 6 (Delayed) (AP)—Three thin-skinned ships of the Antarctic expedition sailed from Little America tonight, seeking safe passage through the formidable ice-pack. Rear Adm. Richard E. Byrd and 197 men were left behind for a three weeks' stay in a tent town perched on the wind-swept ice-cap.

A flight over the South Pole has been mapped as one of the possible activities before Byrd's base finally is evacuated about March 1. Whether Byrd himself might make the polar flight aboard one of the six photographic R4D planes has not been disclosed.

GROSS FAVORS LIMIT

Washington, Feb. 7 (AP)—Party lines were maintained as the House passed a constitutional amendment yesterday limiting Presidential tenure to two terms by a 285-121 vote. Pennsylvania's 28 Republican representatives voted for the amendment, while four of the state's five Democrats voted against it. Rep. Augustine B. Kelley of Greensburg was not listed as voting.

UNUSUAL SHORTCUT

Oklahoma City, (AP)—Next time a building-sealing interne at St. Anthony's hospital decides to take the short cut home, he's going to forewarn the police, he told Policemen R. S. Riley and Wayne Phillips.

The policemen spotted the interne climbing down the wall of the hospital. When they stopped to question him he explained that if he returned to his quarters by the usual method, through the corridors, he had to walk nearly a block, but by jumping out the window he had only a short distance to go.

Two deadly poisons, sodium and chlorine, combine to form harmless table salt.

Fear 'Holy War' For Palestine

London, Feb. 7 (AP) — Government sources described Foreign Secretary Ernest Bevin today as fearful of an "Arab Holy war" in Palestine and said this was a major factor in disagreement which has blocked completion of a British cabinet plan for the Holy Land's future.

Prime Minister Attlee summoned the cabinet today for another urgent attempt to shape some scheme for easing the tension in Palestine, where events seemed to be heading toward crisis, perhaps within days. The government was reported hopeful its final proposals could be presented to the Arabs and Jews after meeting.

Qualified informants said Bevin was alarmed at the possibility of an Arab outbreak if the Palestine Arabs should be dissatisfied with a partition of the Holy Land into Arab and Jewish provinces, the most likely plan under consideration.

## G-BURG SQUADS ENGAGE MULES AT ALLENTOWN

Coach "Hen" Bream's Bullet courtmen face probably their most severe test of the season Saturday night when Muhlenberg, leader of the Northern division of the Middle Atlantic cage conference, will be met at Allentown.

The Mules have practically the same team that gained an invitation to the National Collegiate Basketball tourney in Madison Square Garden last year. Among the hold-overs are included Harry Donovan, the team's leading scorer, Oscar Baldwin, E. Donovan, McGee, Saemmer, Mackin and Theisen.

Wednesday evening the Mules nosed out Long Island university 55-53 and again loom as another tournament candidate.

While the Bullets fully realize the task confronting them, they are conceding nothing. The play of the locals has been highly satisfactory recently as can be attested to by those who saw them turn back a favored Albright team here Wednesday night.

Although the goal tossing of Akers stole the spotlight in the tilt against the Lions, the play of the other team members was of the best. Bob Hart turned in a brilliant defensive exhibition by holding Guensch to eight points. The Lion star had averaged 17.4 points per game until Wednesday.

George Dracha and Ross Sachs have been playing brilliantly on the defense while adding in no uncertain manner with their goal tossing. Harry Pure has been consistent point-getter all season and a bulwark underneath the hoops.

The Mules have won 10 games while losing but four. Gettysburg has won seven against five reverses.

**Matmen Clash**  
As a preliminary event the Gettysburg college wrestlers, unbeaten in three matches, will tangle with the Muhlenberg grapplers. The Bullets and Mules hold victories over Temple and appear to be evenly matched.

Tonight the Bullet junior varsity cagers meet Delone Catholic at McSherrystown.

## Sen. Myers Fights Sale Of Pipelines

Washington, Feb. 7 (AP)—Senator Myers (D-Pa.) said the cold wave-induced gas shortage in the Pittsburgh area is another reason why sale of Big and Little Inch Pipe lines for movement of natural gas to the east coast should be opposed by Congress.

Myers, fighting immediate sale of the government built and owned lines, told the war assets administration in a letter yesterday that shipment of the gas to the east coast would deprive the Ohio-western Pennsylvania area of the vital fuel it needs—and immeasurably hurt the anthracite industry in the east. His letter declared that companies now bidding for the lines have indicated that they will ship the natural gas directly to the east coast and bypass Pittsburgh.

The prewar price of gasoline in Berlin was 59 cents a gallon.

## Post To Organize Ball Club Monday

Lebanon Valley and New York university will not be met in 1947. Four contests will be played on the local gridiron while four will be played on foreign soil.

The schedule follows:

## JOE LOUIS AND GODOY TO MEET AGAIN TONIGHT

**Mexico City, Feb. 7 (AP)—**Heavyweight champion Joe Louis and Chilean Arturo Godoy, twice a contender for the world title, meet for the third time in a ten-round, no-decision bout tonight inaugurating Louis' Latin-American exhibition tour.

The scene is the new 60,000-seat bullring and Promoter Gene Lucas has high hopes of a sell-out that might result in a gate of \$400,000.

Both were pronounced in "good shape." Louis has been in training here for more than a week, while Godoy arrived only three days ago. Godoy says the mile and a half altitude doesn't bother him, but Louis admits it affects him "just a little." The fight will be in two-minute rounds instead of the regulation three.

**Louis To Weigh 212**

Louis said in typical Louis fashion "I'll fight like always," while Godoy declared "If I don't win I'll give him plenty of trouble." In their two previous meetings, both title bouts in 1940, Louis won a decision in 15 rounds and later scored an eight-round knockout victory.

The champion's take for the exhibition is \$50,000 and 40 per cent of the profits, while Godoy gets a flat \$10,500 and expenses. The government will receive 15 per cent of the gross in taxes. The house is scaled from \$2 to \$30.

Godoy will be fighting at what he calls "my best weight"—200 pounds. Louis weighed 218 on arrival and will enter the ring at about 212, still four pounds over his best.

## Duquesne Wins 14th Game In Row

(By The Associated Press)  
The most consistent winner and the most consistent loser in Pennsylvania college basketball circles saw action last night—and there was no interruption in consistency. Duquesne university, one of six unbeaten quintets in the nation, won its 14th game, routing the Quantic Marines, 51-35.

Meantime, Gannon college lost for the 12th time in 13 starts—56-29 against Canisius—to sink lower in the Keystone state court standings. Grove City is on the bottom of the heap with 11 straight losses against no victories while Duquesne is all alone with a perfect mark.

They swept 14 twin bills, tying the American league record.

### LONG, BUT QUIET?

Locals hear that Leo Durocher has been invited by Commissioner Happy Chandler to drop off at Cincinnati and have a long, quiet chat with him on his imminent trip east. . . . Navy's once-beaten basketball team, sparked by Kenny Shugart of Cheyenne, Wyo., is reported to be anxious to play in the NCAA championship tourney at the Garden next month. Coach Ben Carnevale calls Shugart (5 ft., 9) "the greatest small player I've ever seen."

### VEECK'S TRACKERS

Geo. Halas' Chicago Bears set new attendance records for professional football in five cities last season, in New York, Chicago, Philadelphia, Boston and Los Angeles. . . . What-ever else the Cleveland Indians do this year, they should win all the between-game track meets that Bill Vecek, Jr., can line up for them. George Case and Johnny Rucker must be the fastest pair of outfielders on any big league club.

### STATISTICAL UPLIFT

Baseball box scores are due for a slight face-lifting this season, the result of a poll of the nation's sports editors by the Associated Press. The editors were asked if, instead of the time-honored line "x-batted for Gilhooley in 9th," they would prefer to be told exactly what the pinch-hitter did, for instance "x-struck out for Gilhooley in 9th." Even though fewer than 10 responses have been received so far, the vote in favor of the innovation is so one-sided—about 6 to 1—that it's evident it will be welcomed.

## Figures Against Hank Greenberg

New York, Feb. 7 (AP)—Precedent is against Hank Greenberg's maintaining his American League slugging pace with the Pittsburgh Pirates this coming baseball season.

In the past two decades, more than a dozen American League power hitters passed on to the National in the twilight of their major league careers in search of the fountain of youth.

Of the lot, a handful—Harry Heilmann, Stuffy McInnis, Heinie Manush, George Sisler and Dixie Walker—continued to mace enemy pitchers in the National League, for one year, at least, as they had done in the junior circuit.

The others, like Babe Ruth, Al Simmons, Bob Meusel, Joe Judge, Tony Lazzeri, Zeke Bonura, Joe Vos-mok and Gee Walker, failed to show any semblance of their former greatness and drifted out of baseball within a year or two.

## Philadelphia Hopes To Ban 'Scalpers'

Philadelphia, Feb. 7 (AP)—Philadelphia has a new law which it hopes will drive the racketeering ticket scalper away from the Army-Navy football game and other big sports events here.

City council, by unanimous vote, passed an "anti-ticket scalping" measure yesterday which provides fines of up to \$100 for violations, or a 30-day jail sentence in default of fine.

The bill specifically limits the markup on tickets to half the face value of the ticket with a maximum charge of one dollar plus tax. It also calls for the licensing of all legitimate ticket brokers with payment of a \$50 annual license fee to the city and for a strict watch over their activities.

The law becomes effective 15 days after Mayor Bernard Samuel signs it, and covers the resale of all amusement tickets. Previously the city had no ordinance governing this resale.

## Urge Licensing Of Practical Nurses

Harrisburg, Feb. 7 (AP)—The Pennsylvania State Nurses' association proposed today expansion of the state's nurse practice act to permit the voluntary licensing of practical nurses.

"Many practical nurses, of excellent qualifications, would like to have legal status," an editorial in the Pennsylvania Nurse, monthly publication of the association, said.

"Believing that various types of nursing care, such as the private duty nurse, the general staff nurse and the practical nurse, are needed to give the public the complete nursing service that modern day medicine requires, x x x the Pennsylvania State Nurses' association would like to strengthen the position of practical nurses and to facilitate licensure for those who wish it."

The association added that under its proposal licensure "will not be compulsory, but will provide the opportunity for those who wish to avail themselves of it."

President Franklin D. Roosevelt traveled 243,827 miles during his twelve years in office.

## Bixler Follows Kerr At Colgate

Hamilton, N. Y., Feb. 7 (AP)—Paul O. Bixler, head football coach at Ohio State university, has been named to succeed veteran Andy Kerr as chief gridiron mentor at Colgate university.

Appointment of Bixler, who returns to Colgate after six years at Ohio state, was announced by Colgate Athletic Director William A. Reid on behalf of the athletic council.

Kerr, tutor of Red Raider grid squads for the last 18 years, retires next June 30. The 40-year-old Bixler was assistant football coach and scout for Kerr from 1939 to 1941, and also was Colgate basketball and baseball coach.

Bixler moved to Ohio state in 1941 as coach of ends and wingbacks and was named a year ago, to succeed Carroll Widows as chief coach. His Ohio state Big Nine team won four games, lost three and tied two last season.

Columbus, O., Feb. 7 (AP)—Wesley E. Fesler, former Ohio State athletic great now coaching football at Pittsburgh university, has become the top nominee to succeed Paul Bixler as coach of Ohio State's Bucks.

Bixler's decision to leave Ohio State and succeed Andy Kerr as head football coach at Colgate university was announced today.

Richard C. (Dick) Larkins, Ohio State's athletic director-elect said nothing official had been done yet toward selecting a successor to Bixler, but added that his old-time friend and teammate at Ohio State "certainly will be one of the first considered."

## AILING BABE IS 52 OR 53 TODAY

New York, Feb. 7 (AP)—The ailing Babe Ruth celebrated his birthday today, although the records insist that he actually was born a day earlier. As usual, however, the hero of baseball's millions of fans had enough well wishes to make it a two-day affair.

Whether he is 52 or 53 is also a matter open to some debate. Up until the need for a birth certificate arose some years ago, the Babe had always given February 7, 1894 as the date of his birth. So, by his own choice, he is 53 today.

There was no question until 1934 when he applied for a passport to make a trip to the Orient. The passport bureau demanded a birth certificate and his sister, Mrs. Mary Moberly of Baltimore, sent him a photostatic copy which showed that he was born February 6, 1895.

Having gone along for all those years with February 7, 1894, the Babe never took advantage of his right to be a year younger. He is one of the few middle-aged men in the world who insists on being older than the records show.

Friends started telephoning French hospital early yesterday to wish the former home run king a happy birthday and a speedy recovery from the illness that has kept him there for three months.

# Today's Talk

By GEORGE MATTHEW ADAMS

IDLERS

We need a bit of idling in our lives—to round them out! Not habitual idling, of course, but intelligent idling—idling for a change of scene, idling for meditation, a check-up of our resources, and idling to give the mind and the body a little vacation.

Someone wrote a book about Whitman, and called it "The Magnificent Idler." That title attracted me, and I bought and read the book, and was not disappointed. Whitman was an idler, but he was also very useful, as when he took up the job of being a nurse during the war between the states. But his best idling in peace time was when he rode the New York Fifth Avenue buses, when he sat in Central Park and fed the squirrels, and read from people as they passed, or paused to give him talk.

We can idle to a purpose, and that is always profitable. You see, the body, the feet, and the hands may idle, but the mind may be ever active, observing, analyzing, speculating, and doing a deal of dreaming. That was what so many inventors did in their idle moments. That's what Franklin did when he flew his kite.

I like to look upon a herd of cows in a pasture, chewing their cud, and wondering what they are thinking about. Or a bird upon its limb—silent for a long period, and then bursting into brilliant song. The dog idles a great part of his life away, but we do not begrudge him his joy or his comfort. He is ready instantly to serve or to render up his love and loyalty.

The unoccupational fisherman is an idler—but he would not trade that type of idleness for a king-dom! We can idle usefully and wastefully. The latter never pays.

Cervantes could have been an idler, but chose not to be one. They put him in jail—an unwholesome thing to do for any man—but then and there he decided to do something about it—and so produced a masterpiece in his "Don Quixote."

It all depends upon what our purpose may be in idling. And there should be a purpose. Any decision, without purpose, is liable to end regretfully. The hours rush swiftly by—and can never be recalled!

Tomorrow Mr. Adams will talk on the subject: "The Heaven of Nature."

The Poet of the People  
CRAVATEUR

My "in-law" brother, I confess,  
Has richer tastes than I.  
He wears the most expensive dress  
That dividends can buy.  
But of his neckties now I sing  
In envy, deep and pure.  
A label tells their fashioning  
Was by a "cravateur."

I've always worn the common bow,  
In stripe or polka dot,  
The sort that haberdashers show  
And round their fingers knot.  
It isn't long before they're frayed,  
When lost is their allure,  
But they're just neckties factory made,  
Not by some "cravateur."

With little money in the bank,  
And in my pockets less,  
I can't afford that bit of swank  
Which personal ties express.  
I wear the simple blue and gray,  
As long as they endure,  
Without this label to display:  
"Made by a cravateur."

One knows not what the years may hold  
Or fortune may bestow.  
Perhaps where dollar ties are sold  
Forever I must go.  
But still one secret wish have I,  
Ere ends my earthly tour,  
Just once I'd like to wear a tie  
"Made by a cravateur."

# More Sugar For April 1st Issue

Washington, Feb. 7 (AP)—The OPA will validate another sugar stamp April 1 good for 10 pounds instead of the usual five. This ration will cover both canning and regular home use.

The price agency also announced that stamp No. 53, currently good for five pounds, will expire at midnight March 31 instead of April 30 as originally planned.

All subsequent stamps will be good for 10 pounds, OPA said yesterday.

An OPA official told a reporter two factors governed revision of the rationing procedure. These, he said, are:

1. By making each new stamp good for 10 pounds, OPA will be saving the expense, estimated at around \$1,500,000, of issuing new sugar ration books. After 53 is used, the books will contain only four and OPA wants them to last through the year and possibly beyond.
2. The change will prepare OPA to handle any increase in the year's total sugar rations for household use.

# Major Steel Strike Threat Disappearing

Pittsburgh, Feb. 7 (AP)—Spread of contract extensions throughout the steel industry today virtually eliminated any threat of a major strike but brought a hint that negotiations, conducted more leisurely with the pressure off, may continue into April.

Spokesmen for the CIO-United Steelworkers expressed the opinion—as the union and U. S. Steel corporation officials gathered to resume discussions—that negotiators were disposed to use the time given them by contract extensions so liberally that the talks would run on for more than two months.

Water will dissolve more things than any other liquid on earth.

GOP LEADERS  
NEAR ACCORD  
ON US BUDGET

Washington, Feb. 7 (AP)—Republican Congressional leaders were said today to be near agreement on a \$32,000,000,000 top limit for next year's budget—a figure they contend would leave \$7,000,000,000 for tax cutting and debt payments.

Persons in a position to know said that GOP members of the Senate-House budgetary committee, meeting in secret sessions, arrived at the \$32,000,000,000 figure by listing a possible cut of \$2,000,000,000 in President Truman's \$11,200,000,000 item for national defense.

Mr. Truman proposed an over-all budget of \$37,500,000,000. He estimated revenues at \$37,700,000,000. However, Colin Stam, revenue expert for the joint committee has estimated that these revenues will be \$200,000,000 higher.

**Added Revenue**  
To this, the Republicans have added the \$1,100,000,000 in additional revenue that will be available if the Senate, like the House, approves keeping the wartime excise taxes on luxuries after July 1.

Thus, by the Republican figuring, revenues will total \$39,000,000,000, a \$7,000,000,000 spread over outgo. If this were split equally, it would take care of the 20 per cent income tax slash proposed by some party members and still leave \$3,500,000,000 to apply on the national debt.

It was emphasized that final agreement is yet to be reached on the proposed \$2,000,000,000 slice in defense appropriations. Some Republican members of the joint committee were reported to have opposed vigorously any trimming of the army-navy outlay.

## List Major Cuts

On the other hand, the secret conferences brought testimony from some experts that the defense expenditures might be trimmed as much as 20 per cent without damaging the efficiency of either the army or the navy.

Among other major cuts, the Republicans were said to have decided tentatively that they can eliminate more than 550,000 of the present 2,200,000 federal employees at an annual saving of \$1,500,000,000.

# Governor Duff Says Teacher Salary Increase Is Local Government Problem

## WARNS AGAINST DEPENDENCE ON HELP BY STATE

Harrisburg, Feb. 7 (AP)—Pennsylvania's monumental financial problem—the source of funds for teacher salary increases—is “essentially a local matter,” Governor Duff declared last night.

Whatever is done about teachers' salaries, the chief executive told the state school directors association now meeting here, “ought to be done on the basis of local government.”

At the same time, he cautioned against “too much dependence” on central government. If local government insists on coming to central government for more and more funds, he pointed out, the inevitable result will be a progressive loss of independence as “the central government will insist on more control.”

**Burden On Real Estate**  
Duff emphasized that “there is a very bad difference on how much (teachers) salaries ought to be increased, and suggested that before steps are taken toward increases, Pennsylvania teachers' wage scales should be compared with those of other states.

Commenting on the financial burden of local governments, Duff said “I am thoroughly convinced that real estate is paying far more than its proportionate share of taxes,” adding:

“There ought to be other sources” of local government revenue made available by the Legislature.

Meanwhile, the Legislative council of the association yesterday urged higher salaries for teachers but suggested the state and not the local school districts should provide the money.

**Sees Financial Debacle**  
President Alvie R. Livermore declared that present teacher pay requirements — without “adequate” state aid—“are heading us for a financial debacle in our educational system.”

“A bankrupt school board is a poor employer,” he pointed out, “no matter how good a teacher's salary may look on paper.”

Alvin A. Swenson, Philadelphia, a member of the Philadelphia school board recommended that present inflated conditions be met with “cost-of-living bonuses,” and settlement of the permanent salary question “be delayed a year or two until the situation has become stabilized.”

## End Of Communism Is Legion Goal

Pittsburgh, Feb. 7 (AP)—Principal goals of the American Legion were listed here by National Commander Paul Griffith as the promotion of adequate housing and eradication of Communism.

Addressing the convention of the Western Pennsylvania Lumber Dealers association, last night, Griffith declared: “The American Legion does not propose to let the enemies of our way of life, through propaganda and confusion in time of peace, overthrow the very system they failed to conquer in war. That is a sinister threat Communism poses for America today.”

Griffith said the Legion was organizing 15,000 posts “to touch off community action drives in every community of any size in the nation.”

## OIL REFINING NEARLY PERFECT

Pittsburgh, Feb. 7 (AP)—Oil refinery processes today have been developed to the point where just about 100 per cent of crude oil used—70 to 75 per cent in gasoline and the rest in making some 300 other peacetime petroleum products.

Commenting on the latest refinery techniques, a Gulf Oil corporation spokesman said that in the early days crude oil would yield only five to 25 per cent gasoline.

Since then half a dozen major processes have been invented to squeeze out a little more of the precious gas needed for autos, planes and commercial engines.

Refinery gases, once burned off as wastes in huge flares which illuminated the refineries, are now converted by polymerization and alkylation into gasoline, increasing the yield about 3 to 5 per cent.

New types of catalysts, which constantly regenerate themselves, have permitted more severe “cracking” of the crudes, giving a greater ration of higher quality gasoline.

The gasoline is the big thing, of course, but there are hundreds of other crude oil products including fuel oil, cleaning fluids, insecticides, waxes, greases, home heating oils, tars, asphalt and chemicals. And new products are being found every year.

## Fire Bomb Tossed In Beer Dispute

Pittsburgh, Feb. 7 (AP)—Police reported two new “incidents” last night in the 124-day-old jurisdictional beer dispute.

Someone tossed a fire-bomb, which is a bottle full of blazing kerosene, through a plate glass window at Joseph Broz' beer distributing plant in Lawrenceville, Joe Simonik, who lives on the second floor over the plant, extinguished the flames with a minimum of damage.

Earlier, someone hurled a bottle through a window of a Liberty avenue cafe.

## Cargo Plane Pilot Killed In Crash

Harrington, Del., Feb. 7 (AP)—The 31-year-old pilot of a twin-engine cargo plane was killed and the co-pilot injured when the craft over-shot an emergency landing field Wednesday and crashed in a wooded area after its right engine went dead.

The victim was George Buhl, 31, Cortland, N. Y.

Injured was Truman Conell, 31, West Palm Beach, Fla. He is in nearby Milford Memorial hospital. Edward Boyle, North Plainsfield, N. J., a third crewman, escaped injury.

The plane, operated by International Air Freight of West Palm Beach and carrying paint products, was headed from New York to the Florida city.

## Richard Laurence Heads Sportsmen

The McSherrystown Fish & Game Protective association has elected the following officers for the ensuing year: President, Richard Laurence; vice president, James Miller; recording secretary, Richard F. Klunk; financial secretary, Harry Leonard, Jr., and treasurer, Charles F. Noel. Game Warden Leo Bushman, Gettysburg, spoke at a meeting of the association recently and told the sportsmen how to contact the state Game Commission to obtain game and also the benefit to be derived from a sportsmen's association. Several new members were admitted. The next meeting will be held Tuesday, February 25, in the engine house.

## WOULD CHANGE LABOR LAWS

Congressman Chester H. Gross has disclosed that he favors amending the so-called “Wagner Act” and “Wage and Hour Law” in the hope that crippling strikes can be averted.

He made known his stand after receiving what he called a “threatening telegram” from a York C.I.O. group.

Far from intimidating the York representative, Mr. Gross said he is now more convinced than ever that more equitable labor legislation is needed.

The telegram in part reads “We go on record to follow your voting record in Congress. We will mobilize all our forces to defeat any congressman who votes against the in-

terests of his constituents.”

The telegram demands that the Congressman vote against any and all “anti-labor legislation” without mentioning any specific legislation or clarifying what is meant by “anti-labor.”

To a reporter, Mr. Gross explained that his viewpoint of anti-labor might be different from theirs, but added “I intend to vote just that way.”

He continued: “There has been so much nationwide suffering created, as well as uncertainty in business; so much strife and ill-will brought about as well as production curtailed, due to our present lopsided labor laws, that I intend to vote to amend the ‘Wagner Act’ as well as the ‘Wage and Hour law’ in the hope that nationwide strikes will be prohibited, jurisdictional strike outlawed, and that the individual worker's rights will be protected and at

the same time protecting public interest.

“The present labor war is resulting in federal revenues being tremendously curtailed while unemployment is increasing and red fascism is on the march.”

Indiana, Pa., Feb. 7 (AP)—The collision of an automobile and a passenger train Wednesday killed two men near Home, Indiana county, 11 miles north of here. Killed were Ralph Lightcap and Walter N. TRUMAN IS '48 PARTY CHOICE SAYS HANNEGAN

Washington, Feb. 7 (P)—A broadside of Lincoln Day addresses seemed likely today to provide the Republican reply to a declaration by Democratic Chairman Robert E. Hannegan that his party is ready to call on President Truman to seek reelection.

Hannegan's statement, made at a New York dinner for postal supervisors, was said by White House Secretary Charles G. Ross to have been made without Mr. Truman's knowledge.

But there seemed little doubt the postmaster general and national chairman spoke the wishes of the party's high command when he asserted after praising the President's handling of foreign and domestic problems:

**GOP Strategy**

We have gone far and fast but the task of leading us to peace and plenty is not accomplished in a day nor a year. Until that work is done, we are ready to call upon our President again as the man who has proved himself fit for the job. America will give him the support and loyalty that he deserves of us through the years ahead."

Hannegan later replied "yes" to a question whether it was his intention to throw Mr. Truman's hat into the 1948 Presidential ring.

Most Republicans have thought for some time that President Truman is certain to be the choice of the Democrats in the party's 1948 convention. Accordingly, their strategy has been to try to outshine his administration with their own handling of Congress and gubernatorial offices.

**"Hand of Pendergast"**

Carroll Reece, Republican national chairman, brushed aside Hannegan's remarks with the comment that "it is again the voice of Hannegan but the hand of Pendergast."

The Pendergast organization in Kansas City which gave Mr. Truman his start in politics was made a prime campaign issue by the Republicans last fall.

While there was little other immediate comment from GOP ranks on Hannegan's statement, many leading party members were preparing Lincoln's birthday speeches which they intimated would give their replies.

MOTHER SAVES TWO KIDDIES

Corry, Pa., Feb. 7 (P)—Although painfully seared by flames which destroyed her home, a courageous mother tossed two youngsters out a 2nd-story window to safety Thursday—then jumped out herself. She was unable to save another child, who burned to death.

Witnesses said Mrs. Prudence Silvis, 28, dropped her five-year-old daughter, Rose Lynn Silvis, into the snow. Her niece, seven-months-old Margaret Ruffner, she dropped in to the eager hands of neighbors who had by that time gathered about the fiercely burning house on East Church street.

When she plunged out herself, Mrs. Silvis was badly burned. With Rose Lynn and Margaret, she was taken to Corry hospital, where the condition of all three was reported fairly serious from burns.

Dead in the fire-blackened ruins of the home was a son, Larry Silvis, aged 2½.

Only about 460 million acres of high grade crop land are left in the United States, according to one authority.

COLONEL HELD IN GEM PROBE

San Francisco, Feb. 7 (P)—An Army colonel with an excellent record in the Pacific campaigns and Japanese occupation was under arrest today while customs officials and the army pursued investigations resulting from seizure of \$210,000 in Japanese diamonds. The jewels, customs officials said, were found on the officer's person and in his safe deposit box.

The San Francisco port of embarkation said the officer, Col. Edward J. Murray of Palo Alto, had been placed in "technical arrest and confined to quarters" on direct orders from General MacArthur.

Murray, Tokyo dispatches said, was officer in charge of the bank of Japan, in the vaults of which were millions in gold and silver bullion and diamonds held in occupation custody.

Murray arrived here Monday aboard the S. S. Westminister victory. Collector of customs Paul Leake said customs agents seized \$10,000 worth of Japanese diamonds in his watch pocket and \$200,000 more from his deposit box.

Leake said Murray was traced through a previous sale here of \$20,000 worth of smuggled diamonds. He said the officer, while being questioned, had intimated he considered the diamonds "legitimate loot."

Overcast Blocks Helicopter Flight For Altitude Mark

Dayton, O., Feb. 7 (P)—An overcast at 10,000 feet, Thurs. temporarily balked an attempt by Major Ernest Cassell to set a new high altitude record for helicopters.

The 35-year-old Indianapolis pilot returned to Wright Field at 9:08 (Eastern Standard Time) approximately a half hour after he had taken off, saying he had encountered a heavy overcast at 10,000 feet.

Mechanics began refuelling the plane, and Major Cassell said he would take another try at the record later today.

Cassell's flight approached within 1,150 feet of the present altitude record for helicopters, currently held by Germany at 11,500 feet. Cassell had hoped to push the mark to 20,000 feet in his rotor-blade R5E Sikorsky type machine. That height is considered the absolute ceiling for helicopters.

Peiping, Feb. 7 (P)—U. S. Army forces took another official step today toward getting out of China, sending urgent orders to seven true teams in the field to return to base at once. The first group to return from the field, six officers stationed at Changchun, already have arrived in Peiping. When all are assembled, the 2,000 officers, enlisted men, civilians and dependents will depart for Tangku, the port from which they will sail.

ASK DIRECTORS TO BACK PROBE OF PIAA FUSS

By LEONARD A. UNGER

Harrisburg, Feb. 7 (P)—Rumblings of discontent with policies of the Pennsylvania Interscholastic Athletic Association echoed anew today with a school directors' demand for a legislative probe of the PIAA.

Imputations of "injustice" and "extra-legality" were flung at the PIAA when a panel discussion of routine school problems by a segment of the Pennsylvania School Directors Association flared into a wholesale denunciation of the schoolboy athletic organization.

**Ask Directors To Act**

The debate—it was among approximately 300 secretaries and directors of third class school districts—culminated yesterday in the adoption of two resolutions calling upon the directors' convention as a whole to:

1. Pledge support to a resolution introduced in the state House of Representatives January 21 by Rep. David H. Weiss asking the Legislature to investigate the PIAA.

2. Seek "direct representation" on the PIAA board of control, governing body of athletic activities among more than 900 member schools.

"We consider the PIAA and the WPIAL (Western Pennsylvania Interscholastic Athletic League which comprises PIAA District 7) arbitrary organizations," said John W. Hughes, president of the North Huntingdon township school board, Westmoreland county, adding:

**PIAA Defended**

"We know and found that no appeal can be made from their decisions and that the officials consider themselves extra-legal."

Suggesting that the PIAA be brought under the jurisdiction of the state Department of Public Instruction, A. J. Tranga, Wilmerding school director, declared:

"The WPIAL has done a wonderful job of cleaning up high school athletics. x x x But now this organization has grown a little too strong to be a voluntary organization."

James T. Downie, Punxsutawney schools superintendent and former PIAA District 9 chairman, defended PIAA regulations as "only reasonable" because they permit schools in the PIAA to play only schools "that meet these regulations." "No school is obliged to join the PIAA," he added. "It's purely a voluntary organization."

The average load of a U. S. freight train rose from 734 tons in 1935 to 1,129 tons in 1945.

**SUCCESS STORY**

Twin Falls, Idaho, (P)—Manager A. J. Meeks of the Twin Falls office of the Idaho State Employment Service thought the man asking for construction workers appeared familiar. "Haven't we met before?" Meeks asked. "Yes," was the reply. "I was in here about a year ago to apply for a job and you got me one at the construction company. Now I own it and I'm looking for more help."
